

Box 3DGFlex boxes with Control Unit built-in

3DG-BOX / 3DG-BOX-PC

3DGFLEX

The 3DG-BOXes can house up to 6 modules from the 3DG-FLEX range providing power and a user interface for programming. It's possible to install the 3DG-BOX on the wall, on the flat and it can be insert in a 19" Rack standard. All the mechanical accessories are included in the package.

Two version available:

- 3DG-BOX (code 283156) with display and front keyboard.
- **NEW 3DG-BOX-PC (code 283161)** the headend settings could be performed only through PC connection and web interface built-in.

Main Specifications (*)

- **Two version available:**
 - **3DG-BOX (283156):** with "on board" display and front keypad.
 - **New 3DG-BOX-PC (283161):** the headend settings could be performed only through PC connections (*Factory reset* button for an easy and quick headend factory recovery).
- **Mechanical accessories included in the package:** the 3DG-BOXes could be installed on the wall, on the flat and could be installed on the 19" Rack standard by using the included brackets. **The front panel in plexiglass included for both 3DG-BOX.**
- **Integrated Controller host:** the headend can be programmed or monitored anytime or anywhere (PC and mobile). When a change is detected in the users configuration an alert e-mail is automatically sent.
- **WEB interface included in each module;** basic setup available using the built in control panel.
- **Remote management** to monitor and edit the set up of the headend remotely if required.
- **USB Port** to upload/download pre-configured settings or to upgrade the firmware.
